Good

.

No

Na

Nothing

Evaluation should be done according to students performance

Observation :- 1) There are 3 types of teaching methods here
a) To cover syllabus somehow !

b) Students have to understand or else they will be facing backlogs - some professor follow this!

c) Won't care about syllabus or anything take this notes study and give exams and leave!

2) Not only the facilities are bad but also companies avoid taking placement tests here because of poor working of computers provided here in the laboratory!

3) Students learning MCA and cannot perform java code on the lab computers is hilarious.

4) Student to teacher relation :-

a) Both of them shares negative relationship with each other!

b) Some professors are biased for favouring students who belong to their hometown and it is been observed several times but noone talks about that here.

c) Placement scenes are so bad that it's final semester and more than half of the students are unplaced , because there is not a single opening from TPO department!

d)Ego issues of the male and female professors varies depending on their mood , if they are happy somehow they will give signeture with a smiling face but vice versa is too dangerous.

e) Some people call themselves doctor as they have completed their PHD but won't take

All good.. Still need better placement opportunities for Business Analytics specialization

Placement cell should take some initiative to approach companies, more experienced faculties should hire by the institute.

Its good already

Its very good collaboration.... Takes effort for student... Clear the daughts

It's good already
