Subject: Regarding Consideration of Stakeholder Suggestions in Syllabus Redesigning / Updating Process

Respected sir,

I am writing to bring to your attention to the valuable suggestions provided by various stakeholders pertaining to the expectations for the upcoming syllabus redesigning process. The insights shared by our stakeholders collectively emphasize three key points:

Incorporation of Practical & Advanced Learning: Stakeholders have expressed a keen interest in seeing some practical oriented courses integrated into our syllabus. To cope up with industry there must be some advanced learning topics in the syllabus. This approach resonates with the current demand of the professional world.

Industry Visit in every semester: A strong recommendation from the stakeholders is that student must understand what is happening in industry through visiting to the industry premise.

Integration of industry required soft skills: Another suggestion from the stakeholders is to include necessary soft skills in the curriculum. While theoretical knowledge is crucial, soft skills play a pivotal role in getting good placements as well as making good professionals

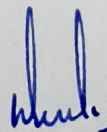

I humbly request your support in considering these recommendations during the syllabus redesigning process. The adoption of such a student-centred and industry-aligned approach will help to improve the overall excellence of MBA & MCA Programs.

Your guidance and support in this endeavour would be greatly appreciated by the all the stakeholders especially students & Faculties. Thank you for your time and consideration. I am eagerly looking forward to your insight and direction on this matter.

Dean
