STUDY THE COMPANY

In this activity, students will be asked to study a company of their choice and write about it.

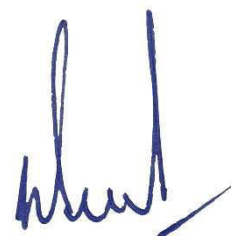

STEPS:

1. Give 10 minutes to the students and ask them to collect the information about the company of their choice.
2. Once they have collected enough information, students have to write a paragraph on that particular company of at least 15 lines.

Please Note: Do not disclose it initially to the students that they also have to write about the company.

SKILLS FOCUSED:

1. Reading Skills
2. Comprehension Skills
3. Writing Skills
4. Analytical Skills

Dr. Daniel Penkar
Director, SIOM

Date: 22/09/2022

GRAMMATICAL CLOZE TEST

In this activity, students will be given paragraphs with fill in the blanks. Here, they have to fill the blanks to make the paragraph sound grammatically right.

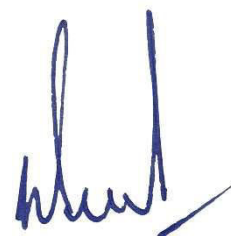

STEPS:

1. It is an individual activity.
2. Circulate in the templates of the cloze test in the class.
3. Give students 10-15 minutes to complete the cloze test.
4. Discuss the answers with the students.
5. Repeat the above process again.

Please Note: Take enough templates to cover the whole class. Either hardcopies can be circulated in the class or the templates can be shown on the projector screen as well.

Skills Focused:

1. Grammatical Skills
2. Comprehension Skills
3. Writing Skills
4. Analytical Skills

Dr. Daniel Penkar
Director, SIOM

Date: 09/01/2023

SENTENCE FRAMING

In this activity, students will be given sentence prompts, where they have to complete the sentence.

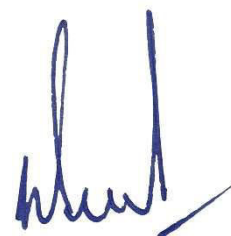

STEPS:

1. It is an individual activity.
2. Circulate in the templates of the sentence prompts.
3. Give students 10-15 minutes to complete it.
4. Discuss the answers with the students.
5. Repeat the above process again.

Please Note: Take enough templates to cover the whole class. Either hardcopies can be circulated in the class or the templates can be shown on the projector screen as well.

Skills Focused:

1. Grammatical Skills
2. Sentence Formation
3. Comprehension Skills
4. Writing Skills
5. Analytical Skills

Dr. Daniel Penkar
Director, SIOM

Date: 09/01/2023

DEBATE

In this activity, students will be given a topic on which they have to present their arguments. One student/team will be presenting arguments in favor of the topic and other in contradiction of the topic.

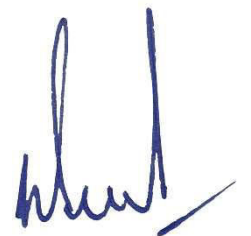

STEPS:

1. It is can be an individual or group activity.
2. The students will be given a topic on which they have to prepare for two minutes.
3. Later student/group will be asked to present in front of the class.
4. The students should be able to speak for at least 3 minutes

Please Note: Please carry enough topics to engage maximum number of students.

SKILLS FOCUSED:

1. Writing Skills
2. Stage Presentation
3. Comprehension Skills
4. Vocabulary
5. Creative Writing
6. Creative Skills

Seven consecutive time slots for a broadcast, numbered in chronological order 1 through 7, will be filled by six song tapes—G, H, L, O, P, S—and exactly one news tape. Each tape is to be assigned to a different time slot, and no tape is longer than any other tape. The broadcast is subject to the following restrictions:

* 1 point

L must be played immediately before O.

The news tape must be played at some time after L.

There must be exactly two time slots between G and P, regardless of whether G comes before P or whether G comes after P.

If G is played second, which one of the following tapes must be played third?

- the news
- H
- L
- O
- S

Each of seven judges voted for or else against granting Datalog Corporation's petition. * 1 point

Each judge is categorized as conservative, moderate, or liberal, and no judge is assigned more than one of those labels. Two judges are conservatives, two are moderates, and three are liberals. The following is known about how the judges voted:
If the two conservatives and at least one liberal voted the same way as each other, then both moderates voted that way.

If the three liberals voted the same way as each other, then no conservative voted that way.

At least two of the judges voted for Datalog, and at least two voted against Datalog.

At least one conservative voted against Datalog.

If the two conservatives voted the same way as each other, but the liberals did not all vote the same way as each other, then each of the following must be true EXCEPT:

- Both conservatives voted against Datalog.
- Both moderates voted for Datalog.
- At least one liberal voted against Datalog.
- Exactly two liberals voted for Datalog.
- Exactly five of the judges voted against Datalog.

A store sells kurta only in small, medium, and large sizes, and only in red, yellow, and blue colors. Rupa buys exactly three kurta from the store. * 1 point

A shirt type consists of both a size and a color.

Rupa does not buy two kurta of the same type.

Rupa does not buy both a small shirt and a large shirt.

No small red kurta are available.

No large blue kurta are available.

Which one of the following must be false?

- Two of the kurta that Rupa buys are small and two are red.
- Two of the kurta that Rupa buys are medium and two are red.
- Two of the kurta that Rupa buys are large and two are red.
- Two of the kurta that Rupa buys are small, one is yellow, and one is blue.
- Two of the kurta that Rupa buys are medium, one is yellow, and one is blue.

A store sells kurta only in small, medium, and large sizes, and only in red, yellow, and blue colors. Rupa buys exactly three kurta from the store. * 1 point

A shirt type consists of both a size and a color.

Rupa does not buy two kurta of the same type.

Rupa does not buy both a small shirt and a large shirt.

No small red kurta are available.

No large blue kurta are available.

If Rupa buys a small blue shirt, which one of the following must be false?

- Rupa buys two blue kurta.
- Rupa buys two red kurta.
- Rupa buys two yellow kurta.
- Rupa buys two small kurta.
- Rupa buys two medium kurta.

**Workshop Report on
Internet of Things**

Date:-23th July, 2019 to 24th July, 2019

Sinhgad Institute of Management, had arranged Faculty Development Programme on Internet of Things on 23rd July, 2019 to 24th July, 2019. Timing :10:00 to 6:00 pm with industry expertise, Mr. Sumit from ATS Infotech having experience of 6 years on IOT implementation through cloud.

The objective of this workshop was to give the insights of the emerging trend in **Internet of Things using Raspberry Pi**. and 60 + faculties and students has been participated for the workshop.

Day-1

The workshop was commenced with welcome address by Prof.Dhirendra Kumar followed by the felicitation of the Trainer Mr. Sumit with the hands of Dr.Chandrani Singh, Director, SIOM-MCA. On the first day of workshop trainer delivered some basic concepts of **IoT by using Raspberry Pi**. The trainer also had given the demo of different concepts through PPTs.

Interactive session by Trainer on IoT

Faculties and students were participated enthusiastically

The internet of things, or IoT, is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers (UIDs) and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

The Internet of things is the extension of Internet connectivity into physical devices and everyday objects. Embedded with electronics, Internet connectivity, and other forms of hardware, these devices can communicate and interact with others over the Internet, and they can be remotely monitored and controlled.

It's a variant of LXDE as well as the Openbox stacking window manager. Because Raspbian comes standard with pre-installed **software** including Chromium, Minecraft **Pi**, and Mathematica. Easy to install and engineered for the **Raspberry Pi**, Raspbian is a fantastic **Raspberry Pi Linux OS**.

Mr. Sumit conducted ultimate session on IOT implementation using Rasberry Pi and sensors. Where, faculties with students' team worked hands on implementation with electronic circuits and Pi os. He enthusiastically answered the queries of the students. Trainer also shared some resources with participants for future reference. The two day sessions were very effective, informative and appropriately designed. Students and faculty members were very happy and satisfied with the workshop. The feedback of the students and faculties revealed that they are happy and interested in attending another session by the same trainer. Vote of thanks was proposed by Prof. Dharendra Kumar.

Report on
“Data Science Workshop -Techtonic 2020

Title of Event	Data Science Workshop
Date(s) of Event	08/02/2020
Number of Participants	183
Event Coordinators	Dr. Chandrayni Singh
Venue	Seminar hall T12 Third Floor

Objective of event:

The objective of a data science workshop organized by a college can vary depending on the specific goals and focus areas of the workshop. However, here are some common objectives that such workshops might aim to achieve:

Introduction to Data Science Concepts: Provide participants with a foundational understanding of key data science concepts, terminology, and techniques.

Hands-On Learning: Offer practical, hands-on experience with popular data science tools and technologies, allowing participants to apply theoretical concepts to real-world scenarios.

Skill Development: Help participants acquire and enhance their data science skills, including data analysis, programming, machine learning, and data visualization.

Problem Solving: Encourage participants to solve real-world problems using data-driven approaches, fostering critical thinking and problem-solving skills.

Industry Relevance: Connect participants with the current trends and applications of data science in various industries, showcasing its relevance and potential impact.
