A REPORT ON
GUEST LECTURE BY MRS. NILIMA TAPASVI

Activity Title: Guest Lecture by Mrs. Nilima Tapasvi

Coordinator: Dr. Sagar Pawar

Date: 15th October 2018

Day: Wednesday

Participants: MBA Faculty and students.

Dr. Sagar Pawar Sir Felicitated Mrs. Nirmala Tapasvi

The lecture series organised by Sinhgad Institute of Management on woman empowerment with great speakers coming and sharing their thoughts and life experiences. One such lecture was organised on 15th October 2018 had a great guest with us. She is not only a youngest woman to start her own business but also a powerful person with strong feminist views.

Mrs. Nilima Tapasvi, founder and chairman of AHILYARANI MAHILA VIKAS & EDUCATION FOUNDATION and UDYOGLAXMI: ENTREPRENUR DEVELOPMENT & BUSINESS FOUNDATION. She shared her life experiences and incidences which made her the youngest female entrepreneur. She gave account of few incidences one of them was when just started with her spices business, when she got her first order of 3000 roti's per day morning and evening. She accepted the challenge and was able to search an innovative way to keep them fresh for upto 7 hours and not compromising with the quality of product. She believes that Presentation of your product is as important as the quality of the product.

She has also worked with government to make policies for the women in Vidarbha area, the women who were so poor that they couldn't start their own business. She asked government to spend more than Rs 52 Lac for these women.

Business tips from Nilima Tapasvi,

1. Time and knowledge is money
2. Build all your products as if they are for export, quality matters.
3. Presentation of your product is as important as the quality of the product

She believes in taking risk as it helps to become a person better and know the capacity and says that each and every woman should step into business.

She ended her lecture with message that every female in the society deserves better place. They have full right to make their own identity and live the life which they desire.

The lecture was organised by MBA first year division A and anchoring was done by Keshwi Ojha and Namrata Aslesha.

Report on Stree Shakti Lecture Series 2019

Date:30/09/2019

Objectives of Event:

1. To conduct lecture series of successful women's - how they started with their career and why it is important for all to know that each and every woman should be given an equal opportunity for achieving their dreams and goals.
2. To understand how to empowers society and it empowers the economy

Sinhgad Institute of Management arranged a series of lectures on the occasion of Navratri. The Stree Shakti program was initiated 5 years ago to empower the girl students and spread awareness of the ongoing in the industry. The event was organised on 30th September by female faculty and students. Successful female entrepreneurs to share their experiences with students. On 1st day, two successful women, Ms Abeda Inamdar and Ms Manisha Bhati shared their experiences of how they started with their career and why it is important for all to know that each and every woman should be given an equal opportunity for achieving their dreams and goals.

Mrs Abeda Inamdar shared the experience of how she started Abeda Inamdar Jr College and Abeda Inamdar Sr College. After this start, she has already opened more than 30 colleges. The journey in her eyes is inspiring and also something to learn from. In her eyes giving equal opportunities for girls in education is not just important for those girls, but for society itself. Quoting her words, "Education empowers people, it empowers society and it empowers the economy. If the girl is educated, the family is educated, society is educated and hence the nation is educated.". As she also stated that the talent in our society and nation does exist but it is always been unrecognised. Educations give us the power to recognise this potential and talent.

Mrs Manisha Bhati started her speech by sharing some of the thinking patterns of society related to education and career of girls. She stated that she is also from one of these orthodox families where educating girls is considered as not useful and unimportant. Coming from such a background of family restricted her earlier in her education. She got married at age 18 due to family pressure, but she left that home as they were not letting her complete her education. After that, she took an educational loan and completed her education and found herself a job as a financial analyst. She had the craze for banking and finance from earlier so she always wanted to pursue her career in Banking and Finance. This craze and passion is the single most reason for her success. She advised students stating, "To prove yourself you have to improve yourself". Coming to the management

point, she said, management is not a one-time thing, it is a continuous process. You have to work on it daily to be better at it. She ended her speech with the life advice for the students. You should never give your life's control any anyone else's hands.

Event Photos

On day two, Mrs Shodha Kulkarni-Shukla enlightened the students about marketing and business field. She gave 7 aspects as the pillars of business, which were R and D, Marketing, Finance, HR, operations, Legal, Systems. According to Mrs Shobha, if you want to be successful business person, then you should know all these concepts. You should carefully study those concepts. Along with this, she also gave knowledge about the digital marketing. Upon asked by one of the students she also gave insightful thoughts on AdSense from Google. Mrs Sneha Goud, who is the HR professional in Mumbai based reputed company, gave information about the HR field. How an employee should be? It was the basic

theme of this session. She also planned some games for students which were basically to let them know the importance of team work and helping each other.

On Day three of this lecture series, Ms Rajvi Mehta, Professional Garba Dance Teacher and the owner of dance academy in Pune, shared her journey in Pune and how she completed her education with pursuing her dream as a professional dancer. She started her dance classes when she was studying and along

with studying she use to manage her classes on weekends. She is having dance classes at 4 different locations in Pune. She has also launched her new brand under the name Design Fables, where customers can get their shoes designed according to the experiences they had with that particular shoe as the reminder.

Mrs Pallavi Kasande, who is the professional psychologist, shared with the students the knowledge about mind and brain. There is the difference between brain and mind, mind can be trained as we want it to be trained so we can achieve whatever we need to achieve. She also shared the thought that, empowerment is needed for the weaker section of the society and women are not weak at all. They are just not given the responsibilities which they deserve by the society. She also said that each person is unique, there is the difference between same, similar and equal. We need to understand the meaning and difference between these terms.

Dr Babita Gangwani, who is the Physio-Therapist shared the different view about the society and the education system. When she was studying the Course regarding health and diet, she observed that the syllabuss is more towards cooking healthy and diet food, instead of teaching students what the diet is for and how does it work. S decided to become the Physio Therapist. She also introduced students with the ROA concept of humanity introduced by Swami Vivekanand.

The lecture series was concluded on 7th of October 2019 with the sessions of Mrs Diksha Dinde and Yoga Teacher Ms Iryna. Ms Iryna gave the important speech regarding health Yoga. Staying fit is solving half of the problems. So we can at least stay healthy before actually trying to pursue our

dreams.

Your business plan should include:

- 1. The Executive Summary.** This is a concise one- to four-page summary illustrating the key points that are detailed in each section of the ensuing business plan. The Executive Summary should stand on its own as a separate document.
- 2. Business Overview.** Offer a description of the business, including:
 - o The legal structure
 - o Business formation history
 - o The type of business
 - o Location
 - o Means of doing business (Internet, storefront operation, mail order)
- 3. Operations Plan.** Offer an explanation describing how the business will function, including the physical setup and responsibilities for specific tasks.

4. **Market Analysis.** Include an overview of the market as a whole, with specific data and charts or graphs, if appropriate. Define your target market and your plans for catering to this specific audience.

5. **Products and Services.** Describe the products manufactured or sold or the services offered. Classify the different types of products or services and provide a brief description of each.

6. **Sales and Marketing.** Outline pricing and sales information. Include rationalizations for why your audience will buy your products or services and how you will reach them through marketing and advertising efforts.

7. **Competitive Analysis.** Analyze the strengths and weaknesses of your direct and indirect competitors. Demonstrate how you will gain a competitive edge against your competition.

8. **Management Team.** Provide pertinent, concise background information on all key players involved in the business.

9. **Financial Plan.** Include all financial information, from startup costs to balance sheets. The financial section should outline:

- o The amount necessary to start or maintain the business
- o The amount needed over the next two, three, and even five years
- o Plans to use funds
- o Anticipated need for additional funding
- o Ongoing business expenses, including salaries, insurance costs, promotional expenses, etc.

10. **Projections.** Provide projected income statements and balance sheets for at least two or three years.

This plan proposes to study the formalized problem space involved in computational physics domain. This formalized problem space will then be analyzed to formulate corresponding solution space and implementation space. A holistic analysis of these spaces will result into ontology for computational Physics domain. Following this the research proposes to develop a knowledge management ICT tool based on the ontology for the domain of computational Physics. This ICT tool will

Knowledge management comprises a range of practices used by organizations to identify, create, represent, and distribute knowledge for reuse, awareness, and learning across the organizations. Knowledge Management Systems focus on formalization and application of high domain knowledge. It is possible to measure the knowledge strength using the collaboration levels. In addition to adding a certain level of automation to the organization of the global knowledge structure,
